

Cima Software's Scanning Services

Document scanning is the first step in reducing paper, improving efficiency, and automating processes across your organization. Cima's scanning service will digitize your paper and return it to you in the format best fits your needs.

Why should you choose Cima's scanning services?

2 Outstanding security and confidentiality

Cima Software provides a proven scanning methodology along with 15 years of experience handling projects of any sizes. Cima's facilities and infrastructure are fully secured, the staff highly trained, and the equipment adheres to the latest technology trends.

1 Comprehensive Service

Our services include everything from pick up to documents prep, scanning, indexing, quality control, and upload submission of scanned images.

3 Exceptional Value

Digitizing your paper files will save your time and costs, and allow you to easily find and retrieve your documents.

4 Full Compatibility

Scanned and indexed images can be uploaded and accessed through our secure cloud environment or delivered on your choice of media.
